To Whom It May Concern:

I am pleased to be offered the opportunity to write a recommendation letter for the ultrasound services of Dr. Martin Henderson. Ultrasound is an important diagnostic tool and having it available in our small practice has enabled us to achieve a high standard of patient care plus has kept important diagnostic revenue "at home" rather than referred elsewhere. Our reputation relies on the skill, punctuality, and integrity of the service we choose for this important service. Dr. Henderson provided for our needs with excellent and meticulous work over the many years he served our area. His professionalism was consummate and his service dependable. I would not hesitate to employ his services at any time were he still located in our vicinity and it is with utmost regard that I recommend his ultrasound services. I am certain you will be pleased as well.

Sincerely,

Wendy C. Brooks DVM dipABVP
