To whom may be considering the utilization of Marty Henderson's ultrasound services:

I have utilized VetImage for my ultrasound services since starting my practice 10 years ago. Dr. Kari who owns Vetimage, has employed 2-3 other ultrasonographers over the past few years, and Marty has been our favorite. He provides us with accurate , helpful diagnostics, and is always eager to help us with our difficult cases and further diagnostics.

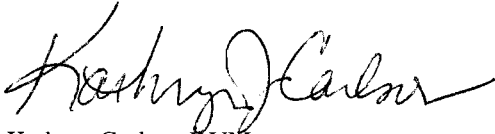

My practice employs 2 full time and 1 part time veterinarian. We are an extremely fast growing hospital located approx 30 min. from Palm Springs and approximately 2-3 hours from any specialty referral practices. Although we own our own ultrasound machine, we consistently utilize Vetimage to handle our more complicated cases. We have the choice of sending clients to a referral hospital, or keep cases in house. In situations where our clients wish to utilize in house services, we have been very pleased with the quality of ultrasound services we have received from Marty and VetImage.

I am fortunate to have clients that have the financial ability to seek advanced diagnostics. We have had many clients go on to have further procedures at specialty hospitals and this has allowed us the ability to confirm the quality of the ultrasound evaluations we received from both Dr. Kari and Marty.

We appreciate all his hard work for our hospital ,will miss him greatly, and expect him to achieve great success in his new business venture.

Please feel free to call me if any further information is needed.

Sincerely,
