To Whom It May Concern:

I have known Dr. Marty Henderson for the past five years. During this time he has performed many abdominal and thoracic ultrasounds and complicated echocardiograms for us at West Main Animal Hospital in Alhambra, California. His expertise in diagnostics and ultrasound is second to none. Whenever we had an ultrasound procedure scheduled we always looked forward to having Dr. Marty perform the procedure. His kindness, expertise and professionalism is second to none. He has been a great asset to our practice and I don't know how we could have gotten along without him.

On a personal note he has wonderful wife and a daughter and he loves playing the guitar. We will greatly miss him in southern California but he will be a wonderful asset in Texas. Our loss will be Texas' gain.

Laszlo A Frics, D.V.M.
