

July 9, 2008

To whom it may concern,

In the period that I have known Dr. Martin Henderson, beginning in 2006, I have received extensive one on one training from him using the LOGIQe ultrasound machine on a variety of species (dogs, cats, ferrets and rabbits) in both cardiac and abdominal studies in addition to ophthalmic scans. Dr. Henderson's expert knowledge and years of experience has helped me tremendously in developing and refining my skills in ultrasound and related medicine. Through his help I have gained the knowledge base I need to allow me to work for Vetimage Inc. as an ultrasonographer at clinics in and around the Los Angeles area.

I am fortunate enough to have Dr. Henderson as a co-worker and as a friend. He is a competent, honest, reliable and genuinely pleasant person. I am certain that you will be pleased with Dr. Henderson's skills as a veterinary ultrasonographer.

Please feel free to contact me with any further questions.

Sincerely,

Ramona
