

VetImage, Inc. ®

PO Box 510, Victorville, CA 92393

July 3, 2008

To Whom it May Concern:

This letter is to serve as a letter of recommendation for Martin Henderson, DVM. I am the owner of VetImage, Inc., a southern California mobile veterinary ultrasound company. I have been performing ultrasound for 15 years, 10 years dedicated solely to mobile ultrasound. Marty initially contacted me in February 2003, for the purpose of honing his ultrasound skills as they relate to becoming a mobile sonographer. He booked a week of training with me and came to California from Alaska.

It quickly became apparent that Marty was not only skilled in ultrasound and medicine, but he possessed the rare quality of integrity and character. The passion which he approaches every case with was refreshing. After spending the week working with Marty on mobile ultrasound, I offered him a position with our southern California team and he started working with us full time two months later.

Since that time in 2003, Marty has performed over 5,600 cases averaging over 1,200 cases per year. As an associate, Marty learned to serve other veterinarians' needs and helped them elevate the level of service they provided to their clients. Further, Marty provided much appreciated technical support and helped develop many systems to make the business of mobile ultrasound at VetImage, Inc. run smoother. He has been truly a team player and a very competent sonographer.

Sincerely,

Shawn Kari, DVM
