To Whom It May Concern:

I have used the Ultrasound services of Dr. Marty Henderson since 2005, and am very pleased with his competency, professionalism, knowledge and communication skills. The quality of our practice has risen with Dr. Henderson's services.

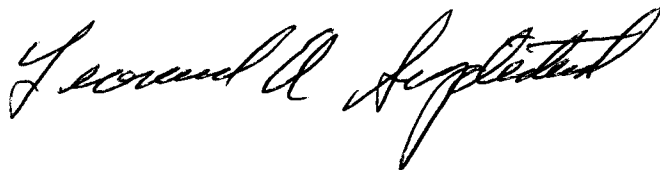

The value of doing the Ultrasound in our practice has raised the quality of medicine in our practice. Having a second opinion from the use of Dr. Henderson's skills increases our clients' loyalty to our practice. I find that having Dr. Henderson come to our practice has increased our practice growth and gross volume.

Dr. Henderson is a man of integrity. He provides recommendations that are of great help in the management of our cases. Even in our terminal cases, the validation of an ultrasound is very helpful to our clients.

I have been in practice since 1967. I have twenty employees and find that having Ultrasounds done by Dr. Henderson in the Hospital, saves me time and hastens the diagnosis.

If you have any questions or need a reference, please call me at 909 825-3144.

Sincerely,
