

## **TERRA VISTA ANIMAL HOSPITAL**

MICHAEL C. WEIGAND, JR., D.V.M.

WALTER J. CAILLETEAU, D.V.M.

July 25, 2008

To Whom It May Concern:

The doctors and staff of Terra Vista Animal Hospital have thoroughly enjoyed working with Dr. Martin Henderson over the past several years. We have a high volume two-doctor practice and have received tremendous benefit from his ultrasound capabilities. He has shown himself to be adept at both cardiac and abdominal ultrasonography. The caseload he experienced here in Southern California allowed him to see a large number and variety of cases in a relatively short amount of time, thereby increasing his expertise in all areas of ultrasonography. This can make him invaluable for second opinions, even in offices that currently utilize ultrasound.

Dr. Henderson's demeanor and professionalism are beyond reproach. He strives to bring added insight to cases, above and beyond the ultrasound findings. It has been a true pleasure working with Dr. Henderson and we wish him all the best in his future endeavors. If you have any questions, please do not hesitate to contact our office.

Sincerely,
